

Triveni Addala

Cell No: +91-8688781919

Email: triveniaddala4@gmail.com

Location: Ongole

SUMMARY:

Motivated fresher with a solid foundation in software development and exposure to various technologies, seeking an entry-level role to apply problem-solving skills, learn fast, and contribute meaningfully to team goals and organizational growth. My projects and coursework have equipped me with a solid foundation in programming , preparing me for challenges in the tech industry.

CERTIFICATIONS:

- Python Full Stack Developer Virtual internship – EduSkills Academy, AICTE.
- Python Developer Quiz – HR Caley.
- Python Essentials – Cisco Networking Academy.

EDUCATION QUALIFICATION:

- B. Tech in Artificial Intelligence & Data Science (Qis College of Engineering And Technology) with aggregate of 73.4%.
- Intermediate (AP State Board) with 81%.
- S.S.C with 88%.

PROJECTS:

Project Name : Spy Cam Detection

Technology : IR, RF Detection, Embedded System, Sensor-Based Detection

This project aims to detect hidden spy camera in surrounding areas.

- Hands-on exposure to IR and RF-based sensor technologies for security and surveillance.

- Designed a basic detection system using Infrared (IR) reflection and Radio Frequency (RF) signal sensing techniques.
- IR- based detection used optical reflection principles to identify hidden camera lenses.
- RF-based detection monitored wireless signal activity to detect active transmitting cameras.
- Improved detection reliability by combining IR and RF techniques.

LANGUAGES:

Telugu(Native)

English(Native)

TECHNICAL SKILLS:

- Programming: Python(Basic)
- Database: SQL, MySQL(Basic)
- Tools: MS Excel
- Core concepts: Object-Oriented Programming(OOP)
